### **Abstract**

In the Orthodox theology, Christ is the true content of the sacraments. The Orthodox theology emphasizes the real and secret fact, at the same time, of sharing or personal communication of Christ in the sacraments and, especially, in the Sacrament of Holy Eucharist. The Sacraments of the Church can not be separated from the Gospel or the word of Gospel, because all Scripture is Christ. Scripture is not teaching or word about Christ, but Christ Himself, for He is secretly hidden under the veils of letters.
